

Road Construction & Maintenance Machinery

RP1003T Soil Stabilizer

- **Product Category:** Road Machinery
- **Brand:** XCMG
- **Model:** RP1003T
- **Price:** \$100000.00-\$1000000.00 / EA
- **Delivery Time:** 1-90DAYS
- **Supply Capacity:** 1-500UNITS / Year
- **Product Origin:** China
- **After-sales Service:** Engineers available to service machinery overseas.

Product Feature of RP1003T Soil Stabilizer

RP1003T paver is one of the flagship models in the 3 series of large-scale pavers, with reliable quality, excellent performance and high cost-performance ratio, it can be widely used in the paving operation of all kinds of highway surface materials, especially suitable for the special construction requirements of large width and thickness. This machine incorporates full hydraulic drive, microcomputer control, left and right independent drive, ultrasonic material level sensing control, electronic automatic leveling, tamper and other world's most advanced technology. The machine has good paving stability, uniform material feeding and distributing, high pre-compaction compaction, good evenness, comfortable operation, convenient maintenance, energy saving and environmental protection and other advantages. Imported key parts and manufacturing quality and reliability reaches the same level of similar imported products. It is the ideal equipment for paving asphalt concrete materials on pavement.

Parameters of RP1003T Soil Stabilizer

Item	Unit	Parameter
Engine manufacturer		
Engine Model		
Rated Power(kW/rpm)		
Operating weight(kg)		
Overall dimensions(mm)		
Basic Pave Width(m)		
Maximum Pave Width(m)		
Maximum L ayer Thickness(mm)		
Maximum Paving Speed(m/min)		
Maximum Travel Speed(km/h)		
Theoretic productivity(t/h)		
Hopper Capacity(t)		
Gradeability(%)		
Heating of screed		
Travel type
