

Road Construction & Maintenance Machinery

RP803C Soil Stabilizer

- **Product Category:** Road Machinery
- **Brand:** XCMG
- **Model:** RP803C
- **Price:** \$100000.00-\$1000000.00 / EA
- **Delivery Time:** 1-90DAYS
- **Supply Capacity:** 1-500UNITS / Year
- **Product Origin:** China
- **After-sales Service:** Engineers available to service machinery overseas.

Product Feature of RP803C Soil Stabilizer

RP803 Paver is one of the important models of 3 series middle paver. According to the domestic and international market demand, 8m middle retractable Paver is developed on the basis of current middle Paver. This Paver is mainly used for surface asphalt paving construction, giving consideration to stable soil material paving. Equipped with a new generation of intelligent control system, this machine adopts the most advanced technologies in the world today, such as full hydraulic drive, microcomputer control, left and right Independent Drive, ultrasonic material level sensing control, electronic automatic leveling, vibrating compaction, etc. This machine has the advantages of good paving stability, uniform feeding and distributing material, high precompaction density, good flatness, comfortable operation, convenient maintenance, energy saving and environmental protection, etc.

Parameters of RP803C Soil Stabilizer

Item	Unit	Parameter
Engine manufacturer		
Engine Model		
Rated Power(kW/rpm)		
Operating weight(kg)		
Overall dimensions(mm)		
Basic Pave Width(m)		
Maximum Pave Width(m)		
Maximum L ayer Thickness(mm)		
Maximum Paving Speed(m/min)		
Maximum Travel Speed(km/h)		
Theoretic productivity(t/h)		
Hopper Capacity(t)		
Gradeability(%)		
Heating of screed		
Travel type
