

Engineering & Construction Crane

XCA130_E Hoisting Machinery

- **Product Category:** Crawler Crane
- **Brand:** XCMG
- **Model:** XCA130_E
- **Price:** \$100000.00-\$1000000.00 / EA
- **Delivery Time:** 1-90DAYS
- **Supply Capacity:** 1-500UNITS / Year
- **Product Origin:** China
- **After-sales Service:** Engineers available to service machinery overseas.

Product Feature of XCA130_E Hoisting Machinery

- Leading performance: the boom length in full extension is 39.5m, the performance leading in 5%. The grade ability is 40%, which make the machine have good road adaptability
- The unique U boom and plug-in boom head make the load-carrying capacity more balanced, and lift more smoothly.
The unique stretch and retract technique prevents the misoperation; the stretch and retract of the boom is safer and more reliable.
The control system is optimized by 8 patents; lifting, rotation, and luffing are easy and reliable.
- Six unique technologies supply the quality assurance, and make the products keep a high value.
- The innovative jib system adopts embedded block, plug-in boom head and octagon jib, which has excellent lifting performance and safe and reliable lifting work.

Parameters of XCA130_E Hoisting Machinery

Item	Unit
Maximum rated lifting capacity	130t
Fully-extended boom	2297kN.m
Engine rated power	360kW/1700rpm
Maximum travel speed	80km/h
Maximum grade ability	60%
