

Excavator

XE80E Excavators

- **Product Category:** Excavators
- **Brand:** XCMG
- **Model:** XE80E
- **Price:** \$100000.00-\$1000000.00 / EA
- **Delivery Time:** 1-90DAYS
- **Supply Capacity:** 1-500UNITS / Year
- **Product Origin:** China
- **After-sales Service:** Engineers available to service machinery overseas.

Product Feature of XE80E Excavators

* Performance meets Efficiency

Designed to combine power and smoothness, the XE80E is ready to take on the challenge. This short-tail two-piece boom machine can easily perform on your jobsites even in confined spaces. Its versatility is enhanced by two standard hydraulic circuits (AUX1 & AUX2) and precise oil flow control. High digging and lifting performance together with smooth driving performance make this XE80E complete.

The Kubota V3307 Stage V common rail diesel engine with EGR, DOC, and DPF technology matches excellently with our improved hydraulic load sensing system. This combination ensures fuel-efficient and smooth control, regardless of its load.

Our powerful XE80E thus has become more fuel efficiency even under heaviest circumstances and is a pleasure to operate.

*** Ergonomic and Comfortable**

The XE80E is designed to provide you with the best working conditions. The cab has a wide entrance door, which makes it more accessible. The OPG/TOPS/ROPS(ISO 3471) cabin maximizes your safety.

*** Easy Service Access** Our XE80E was developed with particular attention to easy service access.

With a single access point for the daily maintenance of all main components, fuel level gauge, and refueling through the lockable cap.

Parameters of XE55E Excavators

Description		Parameter value
Operating weight		9500Kg
Bucket capacity		0.35m ³
Engine	Model	Kubota/V3307CRTE5
	No. of cylinders	4
	Output power	54.6 kW /2200 rpm
	torque/speed	265 Nm/1500 rpm
	Displacement	3.3L
Hydraulic system	Travel speed (low - high)	2.7-4.9km/h
	Gradeability	70%/35°
	Maximum traction force	64kN
Oil Capacity	Fuel tank capacity	130L
	Hydraulic tank capacity	110L
	Engine oil capacity	10L
Working scope	Max. digging height	8325mm
	Max. dumping height	6440mm
	Max. digging depth	3945mm
	Max. vertical wall digging depth	3300mm
	Max. digging reach	7890mm
	Min. swing radius	2910mm
