

Fire & Rescue Vehicle

AP70 Emergency Rescue Fire Truck

- **Product Category:** Fire-Fighting Machinery
- **Brand:** XCMG
- **Model:** AP70
- **Price:** \$100000.00-\$1000000.00 / EA
- **Delivery Time:** 1-90DAYS
- **Supply Capacity:** 1-500UNITS / Year
- **Product Origin:** China
- **After-sales Service:** Engineers available to service machinery overseas.

Product Feature of AP70 Emergency Rescue Fire Truck

AP70 is a multi-functional fire truck with high mobility in cities, which integrated with functions of emergency rescue fire truck, powder fire truck, foam fire truck and compressed air foam truck. To meet the complex requirement of fire fighting, AP70 can spray single extinguishing agent, including water, foam A, foam B and powder, etc., and combined agents for fire fighting; it also can supply high pressure water and foam mixture agent for water and foam tower fire truck or high-rise buildings; Against various disaster disposal, AP70 installed power generation and lighting devices, complete set of hand-held hydraulic demolition equipment and other emergency rescue equipment. The vehicle also has the advantages of wading depth, high mobility and intelligent control. It is the first vehicle dispatched for all kinds of building fire extinguishing in public venues, residential buildings and shopping malls, as well as for prominent public security incidents such as urban traffic accidents, building collapses, earthquake and personal distress.

- Well adaptability for extinguishing. Equipped with high-and-general pressure fire pump
- Strong power and excellent mobility; great fording and high off-road performance.
- Excellent one-time carrying capability: The vehicle can carry 8 persons at a time with

and CAFS system, the vehicle not only can meet the requirement of normal pressure extinguishing condition with hose and fire branch directly, but also can meet the supply requirement of water and foam for super high-rise buildings; it also can meet the extinguishing requirement in joint operation with water and foam tower fire truck.

- Simply and fast intelligent control

Equipped with controller and large screen display, the vehicle has one-button control system which integrated various fire-fighting operational conditions. double-row crew cab which meets the operational requirement of quick extinguishment and large number of firefighters input for various fire and accidents.

Parameters of AP70 Emergency Rescue Fire Truck

Category	Item		Unit	Parameter
Dimension	Overall length		mm	11500
	Overall height		mm	3950
	Overall width		mm	2540
Weight	Total weight		kg	31500
	Extinguishant rated load weight	Water	kg	6000
		Foam	kg	200/300 (A/B)
		Dry powder	kg	800
Travel performance	Max. travel speed		km/h	100
	Max. net power		kw	338
	Power density		—	10.7
Fire-fighting performance	Monitor Water monitor rated flow	Water	L/s	80
		Foam	L/s	80
		Dry powder	kg/s	7
	Monitor Rated reach	Water	m	80
		Foam	m	75
		Dry powder	m	25
	Water pump Fire rated flow	low-pressure	L/s	120
		high-pressure	L/s	25
	Water pump Fire rated pressure	low-pressure	mPa	1
		high-pressure	MPa	4
	Air/foam compressor system	Dry foam flow	L/S	1.5
		Wet foam flow	L/S	12
		Dry foam reach	m	3
		Wet foam reach	m	20
