Product Feature of NXG5900D3T (WP12G460E310) Off-highway Dump Truck

We have fully considered the customer demands and finalize the configuration after thousands of high-strength industrial assessments in different construction environments. Approved by national military field testing and TUV certification, the performance is highly adaptive to all complex working conditions that cannot be coped with by traditional dump truck. Our trucks are widely used for surface mining, water conservancy construction, short-distance transportation, removing mountains for filling seas or other construction projects.
