

Road Construction & Maintenance Machinery

XM1305K Cold Milling Machine

- **Product Category:** Road Machinery
- **Brand:** XCMG
- **Model:** XM1305K
- **Price:** \$100000.00-\$1000000.00 / EA
- **Delivery Time:** 1-90DAYS
- **Supply Capacity:** 1-500UNITS / Year
- **Product Origin:** China
- **After-sales Service:** Engineers available to service machinery overseas.

Product Feature of XM1305K Cold Milling Machine

XM1305K road milling machine is a high-performance 3m-wide milling machine mainly used for the digging and renovation of asphalt concrete pavements in highways, downtown roads, airports, cargo yards, and parking lots. With high working efficiency, simple construction processes, easy control of milling depth, easy and flexible operations, good mobility, and direct recycling of milled old material, this machine can be extensively applied for the repair, renovation, and maintenance of asphalt roads.

Parameters of XM1305K Cold Milling Machine

Item	Parameter
Milling width	1200mm
Milling depth	300mm
Cutter space	18mm
Manufacturer	Shangchai
Type	SC9DK260G3
Displacement	8.8L
Rated power	48L
Comprehensive fuel consumption	19.5L
Front crawler dimension	1330x260x550mm
Rear crawler dimension	1330x260x550mm
Conveyor belt width	600mm
Fuel tank	480L
Hydraulic oil tank	120L
Hydraulic tank	1600L
