XZJ5180GXW Sewage Suction Truck

- **Product Category:** Sanitation Machinery
- **Brand:** XCMG
- **Model:** XZJ5180GXW
- **Price:** \$100000.00-\$1000000.00 / EA
- **Delivery Time:** 1-90DAYS
- **Supply Capacity:** 1-500UNITS / Year
- **Product Origin:** China
- **After-sales Service:** Engineers available to service machinery overseas.

Product Feature of XZJ5180GXW Sewage Suction Truck

It is specially used for sewage suction for sewer, catch basin, septic tank and various channels, as well as suction, loading & transportation and discharge for sewage deposits in such industries as petroleum, steel and chemical industry.

(1) Integrated Function, High Efficiency

Three functions are available: vacuum suction, pressure discharge and self-flow discharge; the advanced pipeline design and novel which is convenient for installation and repair and simplifies the operation. Vacuum pump of well-known brand is used; dual-pump flow-converging also can be adopted; only 12 min is needed for filling it.

(2) Anti-overflow Device, Reliable Safety

Controller of anti-overflow device is installed at the outlet of tank top; the floating ball of controller will immediately seal for vacuum management when the liquid reaches the nominal range, so as to prevent liquid overflowing into the vacuum pump. The unique scissor type lifting mechanism lies at

(3)Pickling of tank,Durable in Use
The tank body is pickled strictly and coated with special anticorrosive and non-toxic tank paint, which has good anticorrosion performance.

Parameters of XZJ5180GXW Sewage Suction Truck

Item	Unit	Parameter
Total Weight	kg	18000
Rated Payload	kg	9715
Max. Speed	km/h	98
Tank Volume	m ³	12.3
Tank Dimension	mm	7810x2460x3400
Suction Diameter	mm	100
Depth of Suction	m	7
Speed Ration of Suction	m ³ /h	244
