

Sanitation Machinery

XZJ5250ZYS Compressed Garbage Truck

- **Product Category:** Sanitation Machinery
- **Brand:** XCMG
- **Model:** XZJ5250ZYS
- **Price:** \$100000.00-\$1000000.00 / EA
- **Delivery Time:** 1-90DAYS
- **Supply Capacity:** 1-500UNITS / Year
- **Product Origin:** China
- **After-sales Service:** Engineers available to service machinery overseas.

Product Feature of XZJ5250ZYS Compressed Garbage Truck

It is the preferential vehicle for garbage collection, compression and transportation which mainly used in residential quarters, streets and campus.

(1) High Compression Ratio, Fast Loading Speed

Bidirectional compression technology is adopted, with XCMG superior hydraulic system and pressure installation mechanism, to ensure that different components of garbage is uniformly covered by pressure. The garbage volume is reduced by 66.67% and the garbage capacity is increased by about 20% under the same container volume condition.

(2) Reduce Noise, Eliminate Pollution

There are various sealing mechanism to lock the garbage and prevent leakage of gas and liquid, solving the problem of secondary pollution during compression, loading and transportation.

(3)Intelligent Control, Comfortable Operation
Extend the nerve ending of product control system and configure the remote control to realize 'zero cibtact' between operator and domestic garbage.

Parameters of XZJ5250ZYS Compressed Garbage Truck

Item	Unit	Parameter
Total Weight		25000
Rated Payload	kg)	10300
Max. Speed	km/h)	90
Volume of Dustbin	m³)	19
Sewage Tank Volume	L)	360
Compression Cycle Time	s)	18-20
Discharging Time	s	25
